The Mercedes-Benz approved/recommended Bluetooth® Phones can be utilized inside Mercedes-Benz vehicles.

Application
These installation instructions are valid for vehicles with an MHI hands-free communications systems and a Mercedes-Benz-approved Bluetooth® mobile telephone. Approved mobile telephones are listed and can be purchased on the Internet at www.wireless4mb.com or call 1-800-266-7746 to speak to a wireless activation specialist.

Parts included
- (1) Mercedes-Benz Cradle adaptor with Bluetooth® wireless technology

Notes
Please contact your local Mercedes-Benz Center if you encounter difficulties when operating the Mercedes-Benz Hands-Free Communication System.

More information can be found on the Internet at www.wireless4mb.com or call 1-800-266-7746 to speak to a wireless activation specialist.

Warning
It is not recommended to operate the mobile telephone keypad while driving.

Notes
The manufacturer reserves the right to change technical details from those shown in the illustrations contained in these installation instructions. These installation instructions also refer to the vehicle Operator’s Manual, COMAND Operator’s Manual, and mobile telephone manual. Please refer to them for reference. Use of a mobile telephone other than a Mercedes-Benz approved/recommended model may result in improper performance and cannot be equipped or serviced by Mercedes-Benz.

Installing the Mercedes-Benz Cradle adaptor with Bluetooth®

1. Insert the Mercedes-Benz Cradle adaptor with Bluetooth® (1) into the latches on the pre-installed contact plate (2), located in the center console. To insert the Mercedes-Benz Cradle adaptor with Bluetooth® (1), slide it upwards until it clicks into place.

Pairing the mobile telephone with the Mercedes-Benz Cradle adaptor with Bluetooth®

Make sure that the starter switch is in position 1, 2 or 3 (see the vehicle Operator’s Manual).

1. With Mercedes-Benz Cradle adaptor with Bluetooth® connected to the vehicle press button (3) for approx. 2-3 seconds. The LED’s (4) will begin to flash rapidly. The Mercedes-Benz Cradle adaptor with Bluetooth® is in Discovery Mode and can be detected by a Bluetooth® mobile telephone. The Mercedes-Benz Cradle adaptor with Bluetooth® will appear as “MB PhoneSystem” on the mobile telephone.

2. For instructions on how to get the mobile telephone ready for pairing, see the mobile telephone manual or visit www.wireless4mb.com. Once the mobile telephone and Mercedes-Benz Cradle adaptor with Bluetooth® find each other the mobile telephone will prompt the user to enter a Pass-Key.
Establishing a Bluetooth® Connection

Notes

A maximum of 4 mobile telephones can be paired with the Mercedes-Benz Cradle adaptor with Bluetooth®. However, only one mobile telephone is connected to the Mercedes-Benz Cradle adaptor with Bluetooth® at a time. If a fifth mobile telephone is paired with the Mercedes-Benz Cradle adaptor with Bluetooth®, then the information stored from the first mobile telephone which was paired with the Mercedes-Benz Cradle adaptor with Bluetooth® will be replaced.

When the starter switch is in position 1, 2 or 3 (see the vehicle Operator’s Manual), the Mercedes-Benz Cradle adaptor with Bluetooth® will search for one of the previously paired phones and connect to it.

If the last connected mobile telephone is not found the Mercedes-Benz Cradle adaptor with Bluetooth® and mobile telephone is not established automatically, it is possible to establish a connection manually (see 3).  

Disconnecting the Bluetooth® connection automatically

The connection between the Mercedes-Benz Cradle adaptor with Bluetooth® and the mobile telephone is automatically disconnected when the mobile telephone travels outside of the range (approx. 30 ft) of the Mercedes-Benz Cradle adaptor with Bluetooth®.

Note

Before manual connection, the mobile telephone must previously be paired with the Mercedes-Benz Cradle adaptor with Bluetooth® (see pairing procedure 4). The mobile telephone is now ready for use with the Mercedes-Benz Hands-Free Communication System.

Notes

- This device must accept any interference.
- This device may not cause harmful interference.

Establishing a Bluetooth® Connection

Notes

A maximum of 4 mobile telephones can be paired with the Mercedes-Benz Cradle adaptor with Bluetooth®. However, only one mobile telephone is connected to the Mercedes-Benz Cradle adaptor with Bluetooth® at a time. If a fifth mobile telephone is paired with the Mercedes-Benz Cradle adaptor with Bluetooth®, then the information stored from the first mobile telephone which was paired with the Mercedes-Benz Cradle adaptor with Bluetooth® will be replaced.

When the starter switch is in position 1, 2 or 3 (see the vehicle Operator’s Manual), the Mercedes-Benz Cradle adaptor with Bluetooth® will search for one of the previously paired phones and connect to it.

If the last connected mobile telephone is not found the Mercedes-Benz Cradle adaptor with Bluetooth® and mobile telephone is not established automatically, it is possible to establish a connection manually (see 3).

Note

Before manual connection, the mobile telephone must previously be paired with the Mercedes-Benz Cradle adaptor with Bluetooth® (see pairing procedure 4).

When the mobile telephone is within the range (approx. 30 ft) of the Mercedes-Benz Cradle adaptor with Bluetooth®, the connection between the mobile telephone and the Mercedes-Benz Cradle adaptor with Bluetooth® remains active, and phone calls made with the mobile telephone use the vehicle’s hands-free system. For this reason, the connection between the mobile telephone and the Mercedes-Benz Cradle adaptor with Bluetooth® should be disconnected manually if the mobile telephone is taken out of the vehicle (see 5).

Notes

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - This device may not cause harmful interference.
  - This device must accept any interference received, including interference that may cause undesired operation.

Connecting the mobile telephone and Mercedes-Benz Cradle adaptor with Bluetooth® manually

Valid for all Mercedes-Benz vehicles with the exception of the model year 2007 S-Class:

• Press 1 button on the COMAND or radio.

Model year 2007 S-Class vehicles:

• Using the COMAND Controller, select "Telephone" → "Telephone" → "Telephone on".

Note

Before manual connection, the mobile telephone must previously be paired with the Mercedes-Benz Cradle adaptor with Bluetooth® (see pairing procedure 4).

When the mobile telephone is within the range (approx. 30 ft) of the Mercedes-Benz Cradle adaptor with Bluetooth®, the connection between the mobile telephone and the Mercedes-Benz Cradle adaptor with Bluetooth® remains active, and phone calls made with the mobile telephone use the vehicle’s hands-free system. For this reason, the connection between the mobile telephone and the Mercedes-Benz Cradle adaptor with Bluetooth® should be disconnected manually if the mobile telephone is taken out of the vehicle (see 5).

Notes

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - This device may not cause harmful interference.
  - This device must accept any interference received, including interference that may cause undesired operation.
